Maybe even better than free.

The cost of that data transfer is covered by your internet service or the data plan on your phone. Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. filehosting provides an easy possibility for you to send large files to your friends. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Just upload the file you want to share with your friends and we send you a download link to your file. So try our free and simple filehosting service now. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You can give this download link to your friends by mail or instantmessenger. File is free to use with no gotchas and no hidden fees. Unfortunately, we can't make that part free. No account or credit card is required to getstarted. Any file in any format can be uploaded and downloaded for free. Our service is completely free for everyone. There are no restrictions on the number oftimes a file can be downloaded. Simply upload your file and share the link. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You can uploadany type of file (movies, music, documents, images, zip files and more). Using file, you can circumvent those limits without paying to upgrade your team chatservice. You don't need any special software installed to be able to download your files. It is also allowed to link to the download page from websites andcommunities. We have no file size limit. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device. You decide who you want to share your files with. If only wecould, we surely would! On the other hand, using file can actually save you money.
