Maybe even better than free.

Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. Simply upload your file and share the link. The cost of that data transfer is covered by your internet service or the data plan on your phone. Using file, you can circumvent those limits without paying to upgrade your team chat service. filehosting provides an easy possibility for you to send large files toyour friends. We have no file size limit. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Files can be downloaded from any computer from our highspeed servers. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of filesthat can be transferred within their apps. If only we could, we surely would! On the other hand, using file can actually save you money. You decide who youwant to share your files with. Keep your files private, or send your download links only to friends or family. When you use file, you avoid storing the fileyou're sending in your cloud storage or mail server. Just upload the file you want to share with your friends and we send you a download link to your file.Unfortunately, we can't make that part free. No account or credit card is required to get started. So try our free and simple filehosting service now. Any file inany format can be uploaded and downloaded for free. File is free to use with no gotchas and no hidden fees. You can give this download link to your friends bymail or instant messenger. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. It is also allowed to link to the downloadpage from websites and communities. There are no restrictions on the number of times a file can be downloaded. You can upload any type of file (movies,music, documents, images, zip files and more). You don't need any special software installed to be able to download your files. Alternatively you can choose toshare your download links on blogs, forums and social networking sites.
