Any file in any format can be uploaded and downloaded for free. The cost of that data transfer is covered by your internet service or the data plan on yourphone. It is also allowed to link to the download page from websites and communities. Keep your files private, or send your download links only to friends orfamily. File is free to use with no gotchas and no hidden fees. filehosting provides an easy possibility for you to send large files to your friends. Simply uploadyour file and share the link. No account or credit card is required to get started. So try our free and simple filehosting service now. You don't need any specialsoftware installed to be able to download your files. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgrade your teamchat service. Alternatively you can choose to share your download links on blogs, forums and social networking sites. This is easy, fast and reliable filehosting!You don't need any kind of premium-accounts. Our service is completely free for everyone. We have no file size limit. You can give this download link to yourfriends by mail or instant messenger. Just upload the file you want to share with your friends and we send you a download link to your file. There are norestrictions on the number of times a file can be downloaded. You decide who you want to share your files with. Unfortunately, we can't make that part free. Ifonly we could, we surely would! On the other hand, using file can actually save you money. You can upload any type of file (movies, music, documents, images, zip files and more). Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or
