The names for the paper trays in the printer driver and this Guide are as follows Paper tray Manual feed slot While looking at this page on the PDF, you can jump to the page for each printing method by clicking in the table. Caution Do not use ink jet paper, or it may cause a paper jam and damage your printer. To help you choose which paper to use with this printer, see Important information for choosing your paper on page A3. Portrait Letter 4.2 mm 4.2 mm 0.17 in. 0.17 in. 6.01 mm 6.35 mm 0.24 in. 0.25 in. 4.2 mm. Media Type Plain Paper Paper Source Tray1 Pull the paper tray completely out of the printer. Check that the guides are firmly in the slots. Put paper in the tray. Check that the paper is flat in the tray at all four corners. Figure 16 Figure 17 ABOUT THIS PRINTER 1 9. Check that it is inserted fully into the printer. Pull up the support flap to prevent paper from sliding off the top output tray. Select the Paper Size, Media Type, Paper Source, and other settings in the printer driver. Hold the paper in this position until the printer automatically feeds the paper in for a short distance, and then let go of the paper. After the printed page comes out of the printer, put in the next sheet of paper as in Step 4 above. Repeat for each page that you want to print. Use this paper feed and output method when you want to print on thicker paper or card stock. Hold the paper in this position until the printer automatically feeds the paper in for a short distance, and then let go of the paper. After the printed page comes out of the printer, put in the next sheet of paper as in Step 5 above. Repeat for each page that you want to print. You should buy quality envelopes from a supplier who understands that you will be using the envelopes in a laser printer. Before you print a lot of envelopes, test one to make sure that the print results are what you want. Use this paper feed

and output method when you want to print envelopes. http://www.kolsan.pl/kolsan_new/photos/cure-manual.xml

Hold the envelope in this position until the printer automatically feeds it in for a short distance, and then let go of the envelope. After the printed envelope comes out of the printer, the printer will wait until you put in the next envelope. Repeat Step 5 for each envelope you want to print. Printing on transparencies from the paper tray Do not put more than 10 transparencies in the paper tray. Select the Paper Size, Media Type, Paper Source, and other settings in the printer driver. Media Type Transparencies Paper Source Tray1 Pull the paper tray completely out of the printer. Check that the transparencies are flat and below the maximum paper mark . Do not put more than 10 transparencies in the tray at any one time, or it may cause a jam. 1 22 ABOUT THIS PRINTER Figure 125. Pull out the support flap to prevent transparencies from sliding off the top output tray. Send the print data to the printer. Caution Remove each transparency immediately. Figure 127 ABOUT THIS PRINTER 1 23. Select the Paper Size, Media Type, Paper Source, and other settings in the printer driver. Hold the transparency in this position until the printer automatically feeds it in for a short distance, and then let go of the transparency. After the printed transparency comes out of the printer, put in the next transparency as described in Step 5 above. Repeat for each transparency that you want to print After you finish the print job, close the rear cover. Select the Paper Size, Media Type, Paper Source, and other settings in the printer driver. Follow the instructions on the computer screen. The printer will now automatically print all the oddnumbered pages on the other side of the paper. 1 28 ABOUT THIS PRINTER. Select the Paper Size, Media Type, Paper Source, and other settings in the printer driver. Using both hands put the paper in the manual feed slot with the side to be printed on first facing up. Follow the instructions on the computer screen.

Repeat Step 3 until you have printed all the oddnumbered pages on the other side of the paper. 1 30 ABOUT THIS PRINTER Figure 138. If you print 10 pages on 5 sheets of paper, it will print page 2 then page 1 on the first sheet of paper. Typically, this format is a printer command language or page description language. Select the Paper Size, Multiple Page, Orientation and so on. Select the Paper Source and so on. Resolution You can change the resolution as follows 300 dpi 600 dpi Toner Save Mode You can save running costs by turning on the toner save mode, which reduces the print density. Print Setting For Windows You can manually change the brightness, contrast and other settings. While the printer is in sleep mode, all the LEDs are off, but the printer can still receive data from the computer. Receiving a print file or document automatically wakes up the printer to start printing. You can manually add and remove the options for any optional unit device that is installed on the printer. Tray settings will match the installed options. Paper Source Setting This feature recognizes the paper size in each paper tray. You can check the current driver settings. The LED indications shown in the table below are used in the illustrations in this chapter. When the power switch is off or the printer is in Sleep mode, all the LEDs are off. Drum. Pressing the Control panel button wakes up the printer from Sleep mode to Ready mode. Ready to print The printer is ready to print. Pressing Control panel button wakes up the printer to Ready mode. If the Data LED is on for a long time and nothing has printed, press the Control panel button to print the remaining Drum data. Ready Paper. See Paper jams and how to clear them on page 65. If the printer does not start printing, press the Control panel button. No paper Put paper in the printer. See Printing on plain paper on page 18. Then press the Control panel button.

<http://www.raumboerse-luzern.ch/mieten/bosch-sm-10-20-tc-manual>

Misfeed Put the paper back in properly, and then press the Control panel button. Make sure that the front cover is fully closed before you report a service call. It will take up to 25 seconds for the printer to reach the Ready state. Using Control panel button Turn off the printer. Make sure that the front cover is closed and the power cord is plugged in. Connects to the PC parallel port and connects to the Centronics parallel port on the printer. Allows a printer to communicate with an

infrared-equipped portable computer. Transmission range 1 cm 3.9 inch up to 100 cm 39 inch, meets the IrDA standard. You can see the maintenance video in the Maintenance Tutorial section of the CDROM we have provided with the printer. You can see how to replace the toner cartridge. Wait to unpack the toner cartridge until immediately before you install it in the printer. Toner Low message If the LED shows this message, the toner cartridge has nearly run out of toner. Buy a new toner cartridge and have it ready before you get a Toner Empty message. Replacing the toner cartridge To make sure you get high quality print, use quality toner cartridges. When you want to buy toner cartridges, call the dealer you bought the printer from. To prevent damage to the printer from static electricity, do not touch the electrodes shown in Figure 54. Brother strongly recommends that you do not refill the toner cartridge provided with your printer. Do not touch the shaded parts shown in Figure 58 and Figure 59 to prevent any degradation to the print quality. Figure 58 Put the new toner cartridge firmly into the drum unit until you hear it lock into place. If you do not, printed pages may have a vertical stripe. Put the drum unit assembly back in the printer. Close the front cover of the printer. For best performance, use only genuine Brother drum and toner. The printer should be used only in a clean, dust-free environment with adequate ventilation. See Cleaning in this chapter.

<http://ofcinasdeteatro.com/images/compaq-sr5605f-manual.pdf>

Follow these steps to replace the drum unit. You can also view the drum unit replacement method in the instructional video on the supplied CDROM. Open the front cover of the printer. Caution Wait to unpack a drum unit until immediately before you put it in the printer. Exposure to direct sunlight or room light may damage the drum unit. Put the toner cartridge in the new drum unit until you hear it lock into place with a click. If you put the cartridge in properly, the blue lock lever is lifted automatically. Make sure that the printer is turned on, the front cover is open and the Drum and Alarm LED are lit. Reset the drum counter. See the instructions supplied with the new drum unit. When you replace the toner cartridge or the drum unit, make sure you clean the inside of the printer. If printed pages are stained with toner, clean the inside of the printer with a dry soft cloth. You should replace the units listed below after printing the following number of pages. All of the protective parts have been removed. The toner cartridge and drum unit are installed properly. The front cover is fully closed. The default setting for the Status Monitor is off. If you would like to turn the Printer Status on, you can change the setting of the Status Monitor in the Device Options of the Advanced tab. See Device Options on page 25. Take the corrective actions for the error message. Error message Memory Full Print Overrun Resolution Adapted The printer has printed the. See What kind of paper can I use. The printer does not feed paper from the manual feed slot. When you open the front cover or rear cover of the printer, never touch the shaded parts shown in Figure 62. Clear the jammed paper as follows. Pull the jammed paper up and out of the printer. Open the front cover. 6 6 TROUBLESHOOTING Figure 63 Figure 64. Pull the jammed paper up and out of the printer. If you cannot remove the drum unit assembly easily at this time, do not use extra force.

<https://koeltotaal.com/images/compaq-sr5550f-manual.pdf>

Instead, pull the edge of the jammed paper from the paper tray. Pull the jammed paper out of the fuser unit. If you have to pull the paper toward the back of the printer, the fuser may get dirty with toner powder and it may scatter on the next printouts. Print a few copies of the test page until the scattering of toner stops. Take out the jammed paper if there is any inside the drum unit. Put the drum unit assembly back in the printer. Put the paper tray in the printer. Conditions such as humidity, high temperatures, and so on may cause this print fault. See Positioning the printer in Chapter 1. If the whole page is too light, Toner Save mode may be on. Turn off Toner Save mode in the printer Properties tab of the driver. See What kind of paper can I use. Check the printer's environment because conditions such as high humidity can cause hollow print. Put in a new drum unit. See Replacing the drum unit on page 59. Clean the inside of the printer and the primary corona wire in the drum unit. See Cleaning on page 512. Turn over the stack of paper in the paper tray. We

recommend that you use a parallel cable of less than 2 metres 6 feet in length. Make sure that the printer cable is not damaged or broken. Though most plain paper for copying is long grain, some is short grain. We recommend that you use long grain paper for this printer. Short grain paper is too weak for the paper carriage of the printer. It is one of the important characteristics of the paper. This can change greatly depending on the storage environment, although usually paper contains about 5% water by weight. Because paper often absorbs water, the amount of water can sometimes be about 10% in a high humidity environment. Installeer de printer aan de hand van de informatie in de installatiehandleiding. Er zit een afgedrukt exemplaar in de doos, maar u kunt de handleiding ook bekijken op de meegeleverde cdrom. Leest u deze gebruikershandleiding aandachtig door voor dat u de printer gaat gebruiken.

Will A New Cartridge Fix This We keep our list of direct Brother International driver and firmware

links up to date so they are easy to find when you need them. About Printer Driver Windows OSes usually apply a generic driver that allows computers to recognize printers and make use of their basic functions. In order to benefit from all available features, appropriate software must be installed on the system. In case you intend to apply this driver, you have to make sure that the present package is suitable for your device model and manufacturer, and then check to see if the version is compatible with your computer operating system. If that's the case, run the available setup and follow the onscreen instructions for a complete and successful installation. Also, don't forget to perform a reboot so that all changes can take effect properly. Bear in mind that even though other OSes might be compatible, we do not recommend installing any software on platforms other than the specified ones. If you have decided that this release is what you need, all that's left for you to do is click the download button and install the package. If it's not, check back with our website so that you don't miss the release that your system needs. It is highly recommended to always use the most recent driver version available. Try to set a system restore point before installing a device driver. This will help if you installed an incorrect or mismatched driver. Problems can arise when your hardware device is too old or not supported any longer. Learn more opens in a new window or tab This amount is subject to change until you make payment. With Brother laser products the toner and drum work independently UO this is cheaper to run than those where the two units are combined. If one runs out you don't have to replace both items simultaneously substantially reducing waste saving precious resources and your cash. But don't be tempted to cut corners by using cheap consumables as this can mean poor results and in extreme cases could invalidate the manufacturer's warranty. The manufacturer's original consumables will always be the best choice as they have been designed to deliver the best performance from our machines. Toner particle size shape and colour pigmentation all have a direct impact on the sharpness of the printed image. Brother's toner is formulated to exacting standards to ensure you receive high quality print resolution and reliability. Why not do your bit for the environment and return your used toner and drum units to our award winning recycling factory in Wales. Visit [www.](http://www.brothergreen.co.uk)
