THE GAMBLER  
www.kennyrpg.com

About twenty years ago  
On a train bound for nowhere  
I sat up with the Gambler  
We were both too tired to sleep  
So I must talk to you  
Through the window at the darkness  
Till boredom overtook us  
And he commenced to speak  
He said, son, I've made a life  
Out of readin' peop'le's faces  
And knowin' what their minds were  
By the way they held their eyes  
And if you don't mind my sayin'  
I would say you're out of seas  
And for one taste of your whiskey  
I will give you some advice  
So I handed him my bottle  
And he drank down my last swallow  
Then he lit a cigarette  
When he bummed a light  
The night was deathly quiet  
And his face lost all expression  
So said, if you're gonna play the game, boy  
You better learn to play it right  
'Cause ev'ry gambler knows  
That the secret to survivin'  
Is knowin' what to throw away  
And knowin' what to keep  
And ev'ry hand's a loser  
Just like ev'ry hand's a loser  
And the best that you can hope for  
Is to die in your sleep  
You got to know when to hold 'em  
Know when to fold 'em  
Know when to walk away  
Know when to run  
You don't ever count your money  
While you're sittin' at the table  
There'll be time enough for countin'  
When the dealin' is done  
You got to know when to hold 'em  
Know when to fold 'em  
Know when to walk away  
Know when to run  
You don't ever count your money  
While you're sittin' at the table  
There'll be time enough for countin'  
When the dealin' is done  
And when he finished speakin'  
He turned back toward the window  
Put out his cigarette  
Faded off to sleep  
And somewhere in the darkness  
The gambler lit a pipe  
And in his final words  
I found an ace that I could keep  
You got to know when to hold 'em

Love sad song ringtone. Love bgm song ringtone download tamil. Love new song ringtone download. Love nwantiti song ringtone download pagalworld. Love hindi song ringtone mp3. Love hindi song ringtone free download. Lovely song ringtone. Love you mummy song ringtone download.

Tired of the preset ringtones on your iPhone and want to return the good old days of custom ringtones? We've got you covered. With iOS 14 setting a song as your ringtone on iPhone is easier than ever before. It does involve a bit of work, though. To set a song as your ringtone it needs to be saved in your Files app or must be purchased and downloaded on your phone. You can't use songs that you just have saved on Apple Music or another streaming service such as Spotify. The easiest way to do this is to pick out your favorite song and save it to files using an mp3 converter or buy it in the iTunes Store. Then you'll have to create a loop of that song in GarageBand and export it as a ringtone. Don't worry, the process is quite easy, and we'll talk you through the steps. First, download the song you'd like and save it to your iPhone. The easiest way to do this is probably by downloading the song you'd like from YouTube, and converting that to an mp3. Click the link above if you need help with that. Follow the steps below to set a song as your ringtone on iPhone. How to set a song as your ringtone on iPhone: 1. Download GarageBand 2. Open GarageBand 3. Swipe to "AUDIO RECORDER" and select Use "AUDIO RECORDER" to create your ringtone. Credit: screenshot: garageband 4. Tap the gray lines in the upper right hand corner Tap the gray lines. Credit: screenshot: garageband 5. Tap the blue metronome in the upper middle of the screen 6. Tap the gray loop in the upper right hand corner Tap the gray loop. Credit: screenshot: garageband 7. Find the song you want to use as your ringtone in "Files" or "Music" at the top of the screen 8. Hold down on the song and drag it into the workspace 7. Tap the small gray plus arrow in the upper right hand corner Tap the plus sign. Credit: screenshot: garageband 8. Change the section length from eight to thirty You want your section length to be thirty seconds because that is the length of a ringtone. Credit: screenshot: garageband 9. Hold down on the song and tap "Trim" to customize the thirty seconds of the song you want to be your ringtone After selecting "Trim", drag the audio around to get your desired section. Credit: screenshot: garageband 10. Tap the gray arrow in the upper left hand corner and select "My Songs" When your ringtone is ready to be exported, select the gray arrow. Credit: screenshot: garageband 11. To rename your song double tap it 12. Hold down on your song and select "Share" Select "Share" Credit: screenshot: garageband 13. Select "Ringtone" Choose "Ringtone." Credit: screenshot: garageband 14. Tap "Continue" Select "Continue." Credit: screenshot: garageband 15. Select "Export" Select "Export." Credit: screenshot: garageband 16. Tap the option you want the ringtone to be and select "Done" Choose which kind of ringtone you want. Credit: screenshot: garageband Jamming on a particular song and want to make it your iPhone ringtone? But is it possible to make a song as your iPhone ringtone without iTunes or your computer? Yes, it can be done! Whether a custom sound like your child's voice, a music piece, or external ringtones, iPhone allows you to be the decision-maker. In this article, I will take you through the process step by step, so stick along. Things to know before you set any song as an iPhone ringtone? Locally Saved - The track you want as a ringtone should be stored in your iPhone Music Library or the files app. Protected songs (like from Apple Music) cannot be used. The app - You'll need to download and install one of the two apps - Ringtones: Ringtone Maker Apple's GarageBand app Now, let's move on to the next step. How to create a custom iPhone ringtone with GarageBand For this tutorial purposes, I have downloaded a ringtone from Zedge. You can use a website or source of your choice. Launch the GarageBand app on your iPhone. Swipe and find Audio Recorder from the options, tap Voice (mic icon). (You can also use Keyboard or Drummer for the purpose) Here, tap View (brick wall like icon) to enter the editing section. Tap the Loop icon; you'll see three subheadings here - Apple Loops, Files, and Music. Since my ringtone is saved in files, I will be using that tab. Look for the song you want; hold it for a few seconds to import. If you can't see the song, tap Browse items from the Files app to find it. To edit the song, drag the long vertical bar to your custom ringtone's desired starting point. You may use the play button to achieve the perfect starting point of your tone. Once done, double-tap the song and select Split. Drag the Scissor icon down to cut/divide the song at your chosen point. Delete the unusable part of the song by tapping it twice and then choosing Delete. Now, select the down arrow icon from the top-left corner and tap My Songs. Tap and hold the project and select Share from the list. Here, select Ringtone, then continue, name the song as per your choice, and tap Export. Once the process completes, tap Use sound as... to set it as ringtone directly or OK to do it manually. Note: While exporting, iPhone automatically trims the ringtone at 30 seconds. If you want to set an endpoint somewhere before 30 seconds, repeat steps 6 to 9. Set custom ringtone on iPhone without iTunes If you've selected OK previously or you want to use the custom ringtone again, follow these steps: Go to Settings -> Sounds & Haptics -> Ringtones The recently created tone will be displayed on top of the list under RINGTONES. Tap it to set it as your ringtone. Successfully set a song as a ringtone on iPhone without iTunes or PC? I hope this handy trick to set a ringtone of your choice without iTunes or a computer was useful. If you have any queries or face any issues during the process, please share them in the comment section below. And if this was too much of a hassle, don't worry!
